#### Graduate Survey Report – Class of 2011 (August '10, December '10, May '11)

The College of Saint Rose Career Center conducted the graduate survey for the Class of 2011. The purpose of this survey was to collect employment and continuing education outcome information for graduates one year after graduation. We also collected information related to internships and student teaching/clinical practicum participation of the graduates.

Survey responses were collected through on-line surveys, mailings, and follow-up phone calls. These efforts resulted in 640 survey respondents; *a response rate of 39%*. Of those that responded, 41% responded via on-line survey, 43% through hard-copy mailings, and 16% through phone outreach.

To supplement outcome information, we utilized graduate/professional school information from Banner and the National Student Clearinghouse Report; employment information from the Office of Alumni Relations; on-line searches on (e.g. LinkedIn) and reached out to faculty, administrators and staff asking them to share employment and continuing education information for non-respondents. This resulted in employment and graduate/professional school information for an additional 360 graduates; a total of 1,000 - 61% of the graduating class.

This report is a result of the efforts of many individuals. We wish to extend our appreciation to the members of the Class of 2011, the College's Faculty, Administrators and Staff, Alumni Relations, Institutional Research, Registrar's Office, as well as the Career Center's staff. A special thank you to the Career Center Graduate Assistants, Kailah Borchers and Sabrina Leonard, for their assistance with this project.
